Subject: Everclean, EPA File 777-RGL

Good morning, Amanda

This email is a follow up to my February 1, 2019 email regarding the registration status of Everclean's, 777-RGL. I've attached the completed science evaluations for your review. Due to the government shutdown, the Agency is requesting a 45 day time extension from the date this product was originally due(1/23/19) to complete our assessment of the registration package (3/15/19).

If you have any questions, please contact me.

Thanks,

Jacqueline Hardy
